Ijams is in Chicago...Mrs. J. A. Glover returned last week from Indianapolis...Miss Gertrude Hunt and H. W. Cunningham were married at the home of the bride's parents, in this city, Tuesday evening.

BEATING THE USURERS.

Result of a Five Years' Experiment Conducted by Boston Business Men. St. Louis Globe-Democrat. Some Boston business men have recently

completed a five years' experiment of interest to every large city. They united to suppress the chattel-mortgage sharks. They formed a company or association to loan money to the classes who usually fall victims to the sharks. At the time the business men entered the field these lenders were charging the borrowers on chattel mortgages from 3 to 10 per cent. a month. The association adopted a uniform rate of 1 per cent. a month. It required that with every payment of interest the borrower must make a small payment—about 5 per cent.—on the principal.
Since it has been doing business the association has loaned over \$500,000 on chattel mortgages. Fourteen hundred and ninety borrowers have been accommodated. Loans have been repaid very fast, averaging about eighteen months. The usual experience with the shark is that of becoming deeper and deeper in debt. Last year the association paid a 6 per cent, dividend. The object is not to make money, however. It is to earn a fair per cent. on the investment, and to take away the occupation of the shark. Robert Treat Paine is the pesident of the association. He has had numerous inquiries from business men in other cities who desire to put in operation some such plan for the benefit of small borrowers. The experience of the Boston organization has been, according to Mr. Paine, that the safest way of conducting such a business is to confine it to chattel mortgages on furniture and household effects. Loans on horses, carringes, boats, pictures, merchandise, stock in stores have been made by the Boston company and they have generally proved un-fortunate. Loans are avoided to people who are constantly changing their resi-dences, to disreputable characters and to certain of the foreign races. But to decent persons temporarily in need of a little money the association loans upon effects at a rate which not only makes possible, but encourages, repayment. The association is chartered by the State, and has one director appointed by the Governor and another by the Mayor of Boston. The managers are well satisfied with the ex-

periment.

An old dinner party is to be given this week by an Oakland lady as supplement to one she gave last week. It seems that the guests at last week's entertainment were lauding their individual talents in the culinary line, each guest being as candidly doubtful of each other's abilities as they were confident of their own. The hostess were confident of their own. The hostess kindly settled the discussion by placing her kitchen at the disposal of the party for an evening of this week. Then all will meet to sustain their claims to skill in cookery. The first course by a young college man will consist of a mixture of a suspicious name, "scrap iron soup," which he claims is in high favor among the young men of his school. A Vassar girl is to prepare the roast, a young editor will preside over the fate of the coffee, while another accomfate of the coffee, while another accomplished young literary man will show the party how to make salted almonds. A pretty young lady musician has reserved for herself the pleasure of preparing the lemon ice. The party is sanguine as to the success of their least, but their hostess expects to have a supply of good things on hand in case of failure.

Knew Enough.

Detroit Free Press. The wife was reading the paper and the husband was looking over some bills. "I notice here," she said, looking over at him, "that the Kansas Populists have adopted a plan to do away with money."
"You don't need anything of that sort, my dear." he replied earnestly. She was curious at once.

"What do you mean?" she asked. "I mean, my dear, that you already know as much about doing away with money as any woman ought to know," and he dived into the pile of bills once more.

Standard Excellence

The place that Dr. Price's Delicious Flavoring Extracts have won in the public estimation, sustains us in the assertion that for standard excellence, they have no equal. Every housewife who has used

Flavoring yantila CATACIS Orange Rose, etc.

will endorse the above statement. In using them you have purity, uniformity, strength, and fine flavor.

Can this disease be cured? Most physicians say No-I say, Yes; allforms and the worst cases. Af-No-I say, Yes; all forms and the worst cases. After 30 years study and experiment I have found the remedy.—Epilepsy is cured by it; cured, not subdued by opiates—the old, treacherous, quack treatment. Do not despair. Forget past impositions on your purse, past outrages on your confidence, past failures. Look forward, not backward. My remedy is of to-day. Valuable work on the subject, and large bottle of the remedy—sent free for trial. Mention Post-Office and Express address. Mention Post-Office and Express address. Prof. W. H. PEEKE, F. D., 4 Cedar St., New York.
